Education

University of California, Berkeley

B.A. Computer Science, Class of 2023

Experience

February 2020 - Present

Developer — Blueprint, Technology for Nonprofits

I am working pro-bono as a developer from a team to create applications for nonprofits, to help them further their missions, primarily using React and React Native. So far, I have worked with 1951 Coffee Company, a local Berkeley nonprofit that empowers and assists refugees.

September 2019 - Present

Executive Team — Girls Teaching Girls To Code

I am a part of a team at UC Berkeley that plans and hosts events to empower high school girls in the Bay Area interested in Computer Science, teaching them through special curriculums and applied projects.

Projects

Trivia Game Web App - Built a Trivia Game using React.js, Next.js, Vercel by pulling from an open API.

1951 Coffee React Native App - With a team of 6, helped create a React Native App for local Berkeley non-profit, 1951 Coffee Company, allowing them to better communicate with their trainees.

Gitlet - Built a mini version of Git using Java

Various Games (Java & Python) - Built small games including: Lines of action, Signpost, Plants vs. Bees

Encryptor - Created a digital encryptor based on Enigma using Java

Skills

React, Python, Java, JavaScript, Typescript, Figma, Visual Design, Product Design, SQL, Adobe Photoshop & Illustrator
